MOST VIGOROUS SHOCKS FELT IN 17 YEARS

THOUSANDS OF PERSONS FLEE FROM HOMES TO DARKENED STREETS

6 PERSONS REPORTED INJURED. 3 ADJOINING STATES FEEL SHOCKS

Mexico City, March 22.—The capital city and surrounding states today had recovered from a night of terror, occasioned by the most vigorous earth shocks in 17 years.

Lights in Mexico City were extinguished when the tremors shattered electric wires. Thousands of persons, many in night clothing, ran into the darkened streets.

The shocks lasted only three minutes—10:16 to 10:19 P. M.—and so far as could be told today there was no great damage. Six persons were reported to have been injured here and one small shack collapsed.

At least three adjoining states—Tabasco, Guerrero and Puebla—reported feeling the disorders. The shocks were especially severe at Villa Hermosa, Tabasco and Guerrero Puebla.

Telephone messages from Puebla said the population there had been panic stricken and a large section of the population spent the night in the parks and streets.

In Mexico City the streets re-echoed to the clang of ambulances shortly after the earthquakes. Many persons had rushed into the streets with the first disturbances, only to find them dark.

The National Telegraph was advised that several houses collapsed at Oaxaca and numerous people were slightly injured. Lights were extinguished there and church bells tolled through the sway of the earth.

Denver, Colo., March 22.—The seismograph at Regis College recorded a severe earth disturbance approximately 2,500 miles from Denver on the North American continent. Father Forstall told the United Press today.

The first shock was reported at 9:20 P. M. and the last at 10 o'clock, the instrument showed.

"If the quake took place in a populous center, the damage and loss of life must have been great," Father Forstall said.

GUN FIGHT ON MAIN STREET OF NEWPORT; 6 HURT

Newport, Tenn., March 22.—(U.P.)—In a gun fight on the main street here last night, four men and two women were wounded, four of them seriously. The fight occurred when Police Chief Bell entered a cafe to arrest Wade Price on request of Knoxville authorities.

Bell, handcuffed Price and was leaving the cafe when B. C. Cline, a friend of the prisoner, from an automobile across the street, threatened to shoot if the officer did not release him.

The gun fight followed. Mrs. Ruth Johnson, Mrs. Lois Price, both in the car with Cline, were wounded. Ellis Buba, a bystander, was hit.

Cline fled in his car with the women, although wounded. The machine was abandoned five miles from Newport and the women returned here although Cline escaped into the hills. He had not been found early today.

LIST OF 150 TO 200 APPLICANTS TO KEEP HIM BUSY FRIDAY

By HERBERT LITTLE
(United Press Staff Correspondent)

Washington, March 22.—Charles Lindbergh, air chauffeur extraordinary, returned today to his self-appointed task of giving many congress members and their families rides over the capital. He has taken a total of 121 persons, including six senators, and about 100 representatives in the last two afternoons.

Lindbergh was scheduled to take up his task again before noon, and a list of 150 or 200 more applicants makes it likely he will continue on through Friday.

The airman, after appearing before two committees of congress in support of an army air corps promotion bill and receiving the congressional medal of honor from President Coolidge, flew for four hours yesterday. His only smiles came from the cockpit of the big army transport monoplane, his expression before President Coolidge and before the cameras on his descents being unfailingly grave.

Wives and daughters of congressmen are besieging the office of Assistant Secretary of Commerce MacCracken, who is arranging the passenger-lists, and many have endured the peculiarly undignified process of donning a flying-suit in the cold breezes of Bolling Field before hundreds of envious spectators, just for the ride.

Another unique development was revealed by the fact that many congressmen and senators, after signing up for a trip with Lindbergh, later declined the honor. At least two senators and two representatives have sheepishly informed their friends that "the wife won't let me."

CARL LANDIS IS CHARGED WITH ASSAULTING TEACHER

Minneapolis, March 22.—(U.P.)—Carl Landis, brother of a missing Minneapolis high school student has been released in \$1,000 bonds and his trial set for March 29, on charges of second degree assault on T. P. Gruwell, assistant principal of the West high school where the missing boy attended.

Gruwell testified before the grand jury that he had written to the parents about failure of Robert Landis, Carl's brother, to keep up in certain subjects. Later Robert, 15, disappeared.

Gruwell said that after the boy's disappearance, his older brother came to his office, set upon him and pummeled him with his fists.

The trial was delayed when it was suggested that the younger brother may be a material witness.

FALL SAYS HE KNOWS NOTHING OF SINCLAIR CAMPAIGN

FALL TO TELL EVERYTHING HE KNOWS ABOUT OIL RESERVE LEASES

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, March 22.—Albert B. Fall, indicted secretary of interior in the Harding cabinet, announced today he knew nothing of his co-defendant, Harry Sinclair's political campaign contributions or the mysterious Continental Trading Company.

Fall said he now stood ready to break his four years' silence and tell everything he does know about his official leases of naval oil reserves to Sinclair and E. L. Doheny.

His statements were made in a telegram received early today by Chairman Nye of the senate Teapot Dome committee, who with Senator Walsh of Montana is preparing to visit Fall at El Paso, Texas, to get his story.

Fall suggested it might be wiser for the committee to wait until the federal courts take some action on his and Sinclair's plea for the continuance of their trials scheduled here April, for alleged conspiracy to defraud the government. He indicated he would rather have a deposition taken so that Sinclair's attorneys can ask questions and the whole testimony be used in Sinclair's trial.

Fall himself never expects to stand trial as he is seriously ill and his physicians say he has but six or seven months to live.

Sen. Walsh indicated today that a sub-committee would not now go to El Paso to examine Fall as it had planned. While Fall's telegram undoubtedly would permit the senators to make the trip, it strongly suggested a postponement and Walsh believed that government counsel in the Fall-Sinclair case would attend to getting Fall's deposition for the court case as Fall suggested should be done.

Fall's telegram to Nye follows:

"Sir: 'You are, of course, thoroughly informed of proceedings in the district supreme court at Washington, D. C., and doubtless know that an application for a continuance on my behalf is now pending.

"Referring to this matter I made a statement quoted by you in the telegram from you of this date.

"Depositions of witnesses have been made in this criminal case. I stated that I was ready to have my deposition taken here in any manner requested by the court and that I desired the whole truth to be told and would offer no objection to any question that might be propounded to me touching any phase of the entire matter.

"I know nothing whatsoever of the Continental Trading Co. or any of its actions except as I have heard them testified to in court or read them in the newspapers of the country.

"I have no knowledge whatsoever of Mr. Sinclair's contributions to any campaign fund except as hearsay.

"I do know of the matters concerning the leases of the naval oil reserves and of course I know more or less of financial transactions recently testified to by Mr. Everhart (M. T. Everhart, son-in-law of Fall) concerning the Three Rivers ranch property.

"What I meant to say, I mean now to say, is that I am perfectly willing to testify to all matters within my knowledge upon the subjects indicated.

"With due respect to your committee and the senate I may state now positively, despite what is known as the McLean letter dictated to me and addressed to the committee, I was ready and willing later to give all information in my possession to the committee but by the terms of senate resolution No. 54-I regarded myself as having been convicted by the senate and committee, and feared that testimony given by me be-

CORONER'S JURY TO VISIT SITE OF DAM DISASTER

Los Angeles, March 22.—(U.P.)—A coroner's jury of nine men attempting to fix the blame for the breaking of the St. Francis dam, was to visit the dam site today. The visit to the dam was expected to determine whether or not the construction was anchored on bed rock.

HANGING OF HICKMAN IS NOW POSTPONED

DATE OF EXECUTION HAD BEEN SET FOR APRIL 27TH

SUPREME COURT CALENDAR IS CONGESTED, SLOW TO ACT ON APPEAL

San Quentin, Cal., March 22.—(U.P.)—Officials of the San Quentin state penitentiary here were notified today of postponement of the hanging of William Edward Hickman, scheduled for April 27.

The notification came from Grant Taylor, clerk of the state supreme court in San Francisco, where Hickman's appeal from the sentence of death for the murder of Marion Parker is on file.

Because of the congested calendar of the supreme court, it will be impossible for his appeal to be acted upon before April 27, according to word from Taylor.

Hickman will be held in the condemned row of the state prison with no definite date set for his execution until the supreme court has had time to act on his appeal.

Then, if the supreme court upholds the conviction, a new date for the hanging will be set by Judge J. J. Trabucco, who heard his trial in Los Angeles for the murder of the little school girl.

fore the committee and not under the protection of a court would have tended to convict me in a judicial form.

"My understanding of the law has been and is that with my consent, my co-defendant, Mr. Sinclair, can propound interrogations and the government cross-interrogations in the judicial proceedings pending and use my answers just as if I were present in court.

"Do you not think it best to await temporarily the court's action in the premises?

I stated in a written communication to Senator Walsh at Palm Beach that I might have something further to say at a future date upon the subject of this investigation.

"May I now be allowed to respectfully request that if at any time after considering the matter suggested, the committee decides to interrogate me, that Senator Walsh in person attend to any such meetings as from personal acquaintance in his eminent legal ability.

"Very respectfully,

"Albert Fall."

Fall's denial of knowledge concerning the Continental Trading Company and the \$160,000 Sinclair contribution to the Harding republican campaign deficit of 1920 was considered of greatest importance.

The Continental Company, formed by oil men secreted \$3,080,000 in profits for a purpose which has not been fully ascertained by the investigators. From the profits \$233,000 in liberty bonds was given by Sinclair to Fall as a "loan," and \$160,000 to Will Hays, former chairman of the republican national committee.

The meaning of Fall's announcement is that he did not know whence came the bonds he received.

SO INFORMS STATE CENTRAL G. O. P. COMMITTEE

RESOLUTIONS ADOPTED PRAISED HIS ADMINISTRATION

STATE THAT HIS LEADERSHIP BROUGHT HONOR AND PROSPERITY

Washington, March 22.—(U.P.)—Reaffirming his "I do not choose to run" announcement of last August, President Coolidge has informed the Wyoming republican state central committee that he would not grant its request to be a presidential candidate in 1928.

Following a meeting of the committee March 10 at Cheyenne, a resolution was sent the president asking him to "waive his personal preference and consent to continue for an additional four years that leadership which has brought honor and prosperity to this country."

The resolution, in praising the Coolidge administration, also stated the "policies whose wisdom and beneficent effects are being so thoroughly demonstrated" should not be interrupted or jeopardized and that "the leadership which has evolved those policies should be continued."

The president's response to the action of the Wyoming organization was carried in a letter from his personal secretary, Everett Sanders, to L. C. Hinkle, chairman of the committee.

The letter was understood to be the pronouncement on Mr. Coolidge's position which was exclusively reported last Saturday night by the United Press as impending.

REPUBLICAN WARD LEADER SHOT TO DEATH AT CHICAGO

Chicago, March 22.—(U.P.)—Giuseppe "Diamond Joe" Esposito, 56, republican ward leader, was shot to death as he entered the front door of his home here last night.

Esposito died from machine gun bullets fired from an automobile which drew up to the curb as he stepped on the porch.

Esposito derived his name "Diamond Joe" from the unusual numbers of diamonds he wore. When he was killed last night, he was wearing a \$5,000 diamond ring a diamond tie pin and a belt buckle bearing his initials in diamonds.

HUSBAND WHO GAVE UP HIS WIFE FOUND DEAD

Chicago, March 22.—(U.P.)—A husband who gave up his wife three months ago because she loved his friend was found dead in a hotel room here last night. Police were uncertain whether he committed suicide or was a victim of acute indigestion.

He was Harry C. Levinson, attorney. He obtained a divorce last December. Weeping, he told the court he had discovered his wife's love for Dr. Harry G. Hart, former department store executive, a neighbor and friend for many years.

Friends said Levinson had been despondent since his divorce.

AGITATOR OF REFINING COMPANY BLOWS UP

Franklin, Pa., March 22.—(U.P.)—With a terrific explosion which was heard all over the city, the agitator of plant No. 2, Eclipse works of the Atlantic Refining Co., blew up this afternoon.

Although the roof was torn off the building, no one was reported injured. Windows in nearby buildings were shattered.

Fire followed the explosion, but the Atlantic Refining Co.'s fire department gained control of the blaze before the city fire department arrived at the scene.

GENE SHANK IN NEW TRY AT ENDURANCE MARK

St. Paul, March 22.—(U.P.)—Gene Shank, St. Paul law student, planned to take off at 5 p. m. today on a new attempt to break the world's sustained flight record.

His plane, a Waco, will be loaded with only 140 gallons of gasoline, but he will attempt to refuel in the air late this afternoon while circling over the municipal airport.

Shank was forced down yesterday morning by a broken gas line after being in the air more than 12 hours.

GALLOWS LOOM FOR YOUNG GEO. McDONALD

LESS THAN 24 HOURS REMAIN FOR THE CONVICTED MURDERER

HIS AFFIDAVIT A FACTOR IN FREEING WIFE FROM EXECUTION

By JAMES R. KELLY
(United Press Staff Correspondent)

Montreal, Que., March 22.—Less than 24 hours of life remained today for George McDonald, the young husband whose affidavit aided in freeing his pretty wife from the gallows.

Down in Bordeaux prison he waited the call Friday morning when he will be taken up the gallows steps at Valley Field prison and executed for killing Adelard Bouchard, a Montreal taxi-cab driver.

Last minute efforts will be made to save him. His parents plan to ask for commutation of the sentence, from death to life imprisonment, such as was given his wife, Doris.

And Doris—saved by McDonald's affidavit that he alone was responsible for the Bouchard murder and that she had nothing to do with it—might be indirectly responsible for at least a stay in execution.

Attorneys for the American wife of McDonald said they planned, now that she has been saved from the gallows, to ask a new trial for their client. McDonald would be a material witness at such a trial and it was possible a stay might be granted.

There was nothing official, however, in any of the moves and the province went ahead to exact the penalty that had been demanded.

The plans call for him to be led up the red gallows early Friday morning, possibly before 7 A. M. and be hanged. He has sneered at the impending death.

The pleasure loving American woman was more calm today after her hysterical outburst upon learning that she would not join her husband in death. When first advised that her sentence had been commuted to life imprisonment she cried and begged to be sent to the gallows. She was calmed by nuns in the women's prison here.

Lachine, Que., March 22.—There was some feeling here, the home town of the slain Adelard Bouchard, that an error had been made in commuting Doris McDonald's death sentence to life imprisonment.

Mrs. Bouchard and the slain man's son refused to comment but Josephat Dubois, Bouchard's brother-in-law, said the action was "rank injustice."

"It came as a shock to us that our Canadian government was so influenced by American propaganda as to allow such a miscarriage of justice," Dubois said. "Doris McDonald is equally guilty with her husband."

RUSSIAN MOVIE EXTRAS PUT ON A REAL RIOT

Hollywood, Calif., March 22.—(U.P.)—All available Hollywood police were required to subdue and disperse a mob of 1,000 Russian movie extras who rioted last night outside the Paramount studios.

The rioters claimed they had been called for work and then had been refused pay and transportation.

H. F. BLAKE IS STABBED IN THE NECK

ATTACKED BY WOMAN RELATIVE OF GIRL FOR WHOSE MURDER JURY ACQUITTED HIM

GIRL'S MOTHER THEN FIRES A SHOT AS POLICE OFFICER LIES WOUNDED

Columbiana, Ala., March 22.—(U.P.)—In one of the wildest court scenes in the history of Alabama, Chief of Police H. F. Blake of Calera, Ala., was stabbed in the neck by a woman relative of a girl for whose murder a jury had just acquitted Blake.

As the wounded police chief lay bleeding in a chair in the jury box, the girl's mother, Mrs. Maybelle Montebaro, fired at him with a revolver, but missed.

Blake was stabbed by Miss Cecil Tubbs, an aunt of Miss Louise Montebaro, who died from gunshot wounds last November immediately after Blake and a fellow officer arrested the girl for speeding and alleged drunken driving.

Mrs. Montebaro, Miss Tubbs and a man named Tubbs, an uncle of the dead girl, were placed in the Shelby county jail by Sheriff C. J. Faulkner, charged with assault.

Tubbs, officers said, seized the revolver held by Mrs. Montebaro. He claimed that he took the gun to keep Mrs. Montebaro from firing again.

Blake was stabbed in the back of the neck with a small dirk just after the foreman of the jury read the verdict acquitting him of the killing of Miss Louise Montebaro on the Montgomery highway on the night of Nov. 14.

Blake had claimed that the girl killed herself when arrested on a charge of violating the liquor law and speeding.

The court room was filled with spectators who had come to hear the outcome of a case which attracted wide attention because of the accusations against the officer defendant.

The jury foreman had read the verdict finding Blake not guilty of the 22-year-old sewing machine saleswoman's death. Judge E. S. Lyman had left the bench and the jurors had fled out of the courtroom.

Blake was standing by the jury box when Mrs. Montebaro, Miss Tubbs and her brother came into the courtroom. Newspaper men were at the door preparing to leave when Miss Tubbs drew a small dirk and stabbed the police chief in the neck, inflicting a deep flesh wound.

Almost instantly the crack of a revolver shot rang in the little courtroom. The bullet missed Blake and went through a chair.

Deputy sheriffs seized Tubbs, who had a revolver in his hand. He claimed he wrested it from Mrs. Montebaro to prevent her from firing again. Officers, however, took him to jail with the two women, who were hysterical.

A hasty examination of Blake's wound by physicians showed that it was not serious.

Montgomery, Ala., March 22.—The office of Gov. Bibb Graves of Alabama announced today that state troops would be sent to Columbiana in event such a request were made by Circuit Judge E. L. Lyman.

The announcement followed a request from Attorney General Chas. McCall for the immediate transfer of three persons held in Shelby county jail charged with a stabbing and shooting attack upon Chief of Police H. F. Blake of Calera in Judge Lyman's courtroom this morning.

McCall had requested troops in event the requested transfer were not carried out. Four state law enforcement officers, meanwhile, were ordered to Columbiana at once to take charge of the situation.

Governor of Pennsylvania,
Dies at Chester

Chester, Pa., March 22.—(U.P.)—William C. Sproul, former governor of Pennsylvania, died at his home here last night after an illness of several months.

The committee and not under the protection of a court would have tended to convict me in a judicial form.

"My understanding of the law has been and is that with my consent, my co-defendant, Mr. Sinclair, can propound interrogations and the government cross-interrogations in the judicial proceedings pending and use my answers just as if I were present in court.

"Do you not think it best to await temporarily the court's action in the premises?

I stated in a written communication to Senator Walsh at Palm Beach that I might have something further to say at a future date upon the subject of this investigation.

"May I now be allowed to respectfully request that if at any time after considering the matter suggested, the committee decides to interrogate me, that Senator Walsh in person attend to any such meetings as from personal acquaintance in his eminent legal ability.

"Very respectfully,

"Albert Fall."

Fall's denial of knowledge concerning the Continental Trading Company and the \$160,000 Sinclair contribution to the Harding republican campaign deficit of 1920 was considered of greatest importance.

The Continental Company, formed by oil men secreted \$3,080,000 in profits for a purpose which has not been fully ascertained by the investigators. From the profits \$233,000 in liberty bonds was given by Sinclair to Fall as a "loan," and \$160,000 to Will Hays, former chairman of the republican national committee.

The meaning of Fall's announcement is that he did not know whence came the bonds he received.

SO INFORMS
STATE CENTRAL
G. O. P. COMMITTEERESOLUTIONS ADOPTED PRAISED
HIS ADMINISTRA-
TIONSTATE THAT HIS LEADERSHIP
BROUGHT HONOR AND
PROSPERITY

Washington, March 22.—(U.P.)—Reaffirming his "I do not choose to run" announcement of last August, President Coolidge has informed the Wyoming republican state central committee that he would not grant its request to be a presidential candidate in 1928.

Following a meeting of the committee March 10 at Cheyenne, a resolution was sent the president asking him to "waive his personal preference and consent to continue for an additional four years that leadership which has brought honor and prosperity to this country."

The resolution, in praising the Coolidge administration, also stated the "policies whose wisdom and beneficent effects are being so thoroughly demonstrated" should not be interrupted or jeopardized and that "the leadership which has evolved those policies should be continued."

The president's response to the action of the Wyoming organization was carried in a letter from his personal secretary, Everett Sanders, to L. C. Hinkle, chairman of the committee.

The letter was understood to be the pronouncement on Mr. Coolidge's position which was exclusively reported last Saturday night by the United Press as impending.

REPUBLICAN WARD
LEADER SHOT TO
DEATH AT CHICAGO

Chicago, March 22.—(U.P.)—Giuseppe "Diamond Joe" Esposito, 56, republican ward leader, was shot to death as he entered the front door of his home here last night.

Esposito died from machine gun bullets fired from an automobile which drew up to the curb as he stepped on the porch.

Esposito derived his name "Diamond Joe" from the unusual numbers of diamonds he wore. When he was killed last night, he was wearing a \$5,000 diamond ring a diamond tie pin and a belt buckle bearing his initials in diamonds.

HUSBAND WHO
GAVE UP HIS
WIFE FOUND DEAD

Chicago, March 22.—(U.P.)—A husband who gave up his wife three months ago because she loved his friend was found dead in a hotel room here last night. Police were uncertain whether he committed suicide or was a victim of acute indigestion.

He was Harry C. Levinson, attorney. He obtained a divorce last December. Weeping, he told the court he had discovered his wife's love for Dr. Harry G. Hart, former department store executive, a neighbor and friend for many years.

Friends said Levinson had been despondent since his divorce.

AGITATOR OF REFINING
COMPANY BLOWS UP

Franklin, Pa., March 22.—(U.P.)—With a terrific explosion which was heard all over the city, the agitator of plant No. 2, Eclipse works of the Atlantic Refining Co., blew up this afternoon.

Although the roof was torn off the building, no one was reported injured. Windows in nearby buildings were shattered.

Fire followed the explosion, but the Atlantic Refining Co.'s fire department gained control of the blaze before the city fire department arrived at the scene.

GENE SHANK IN
NEW TRY AT
ENDURANCE MARK

St. Paul, March 22.—(U.P.)—Gene Shank, St. Paul law student, planned to take off at 5 p. m. today on a new attempt to break the world's sustained flight record.

His plane, a Waco, will be loaded with only 140 gallons of gasoline, but he will attempt to refuel in the air late this afternoon while circling over the municipal airport.

Shank was forced down yesterday morning by a broken gas line after being in the air more than 12 hours.

H. F. BLAKE
IS STABBED
IN THE NECKATTACKED BY WOMAN RELATIVE
OF GIRL FOR WHOSE MUR-
DER JURY ACQUITTED HIMGIRL'S MOTHER THEN FIRES A
SHOT AS POLICE OFFICER
LIES WOUNDED

Columbiana, Ala., March 22.—(U.P.)—In one of the wildest court scenes in the history of Alabama, Chief of Police H. F. Blake of Calera, Ala., was stabbed in the neck by a woman relative of a girl for whose murder a jury had just acquitted Blake.

As the wounded police chief lay bleeding in a chair in the jury box, the girl's mother, Mrs. Maybelle Montebardo, fired at him with a revolver, but missed.

Blake was stabbed by Miss Cecill Tubbs, an aunt of Miss Louise Montebardo, who died from gunshot wounds last November immediately after Blake and a fellow officer arrested the girl for speeding and alleged drunken driving.

Mrs. Montebardo, Miss Tubbs and a man named Tubbs, an uncle of the dead girl, were placed in the Shelby county jail by Sheriff C. J. Faulkner, charged with assault.

Tubbs, officers said, seized the revolver held by Mrs. Montebardo. He claimed that he took the gun to keep Mrs. Montebardo from firing again.

Blake was stabbed in the back of the neck with a small dirk just after the foreman of the jury read the verdict acquitting him of the killing of Miss Louise Montebardo on the Montgomery highway on the night of Nov. 14.

Blake had claimed that the girl killed herself when arrested on a charge of violating the liquor law and speeding.

The court room was filled with spectators who had come to hear the outcome of a case which attracted wide attention because of the accusations against the officer defendant.

The jury foreman had read the verdict finding Blake not guilty of the 22-year-old sewing machine saleswoman's death, Judge E. S. Lyman had left the bench and the jurors had fled out of the courtroom.

Blake was standing by the jury box when Mrs. Montebardo, Miss Tubbs and her brother came into the courtroom. Newspaper men were at the door preparing to leave when Miss Tubbs drew a small dirk and stabbed the police chief in the neck, inflicting a deep flesh wound.

Almost instantly the crack of a revolver shot rang in the little courtroom. The bullet missed Blake and went through a chair.

Deputy sheriffs seized Tubbs, who had a revolver in his hand. He claimed he wrested it from Mrs. Montebardo to prevent her from firing again. Officers, however, took him to jail with the two women, who were hysterical.

A hasty examination of Blake's wound by physicians showed that it was not serious.

Montgomery, Ala., March 22.—The office of Gov. Bibb Graves of Alabama announced today that state troops would be sent to Columbiana in event such a request were made by Circuit Judge E. L. Lyman.

The announcement followed a request from Attorney General Chas. McCall for the immediate transfer of three persons held in Shelby county jail charged with a stabbing and shooting attack upon Chief of Police H. F. Blake of Calera in Judge Lyman's courtroom this morning.

McCall had requested troops in event the requested transfer were not carried out. Four state law enforcement officers, meanwhile, were ordered to Columbiana at once to take charge of the situation.

TO PAY FORMER SEN.
MAGNUS JOHNSON'S
SEAT FIGHT EXPENSES

Washington, March 22.—(U.P.)—A resolution to pay former Senator Magnus Johnson of Minnesota the \$2,500 he spent fighting for his seat in the senate in 1924 was favorably reported today by the senate privileges and elections committee. It was referred to the audit and control committee.

GALLOWS LOOM
FOR YOUNG
GEO. McDONALDLESS THAN 24 HOURS REMAIN
FOR THE CONVICTED
MURDERERHIS AFFIDAVIT A FACTOR IN
FREEING WIFE FROM
EXECUTIONBy JAMES R. KELLY
(United Press Staff Correspondent)

Montreal, Que., March 22.—Less than 24 hours of life remained today for George McDonald, the young husband whose affidavit aided in freeing his pretty wife from the gallows.

Down in Bordeaux prison he waited the call Friday morning when he will be taken up the gallows steps at Valley Field prison and executed for killing Adelard Bouchard, a Montreal taxi-cab driver.

Last minute efforts will be made to save him. His parents plan to ask for commutation of the sentence, from death to life imprisonment, such as was given his wife, Doris.

And Doris—saved by McDonald's affidavit that he alone was responsible for the Bouchard murder and that she had nothing to do with it—might be indirectly responsible for at least a stay in execution.

Attorneys for the American wife of McDonald said they planned, now that she has been saved from the gallows, to ask a new trial for their client. McDonald would be a material witness at such a trial and it was possible a stay might be granted.

There was nothing official, however, in any of the moves and the province went ahead to exact the penalty that had been demanded.

The plans call for him to be led up the red gallows early Friday morning, possibly before 7 A. M. and be hanged. He has sneered at the impending death.

The pleasure loving American woman was more calm today after her hysterical outburst upon learning that she would not join her husband in death. When first advised that her sentence had been commuted to life imprisonment she cried and begged to be sent to the gallows. She was calmed by nuns in the women's prison here.

Lachine, Que., March 22.—There was some feeling here, the home town of the slain Adelard Bouchard, that an error had been made in commuting Doris McDonald's death sentence to life imprisonment.

Mrs. Bouchard and the slain man's son refused to comment but Joseph Dubois, Bouchard's brother-in-law, said the action was "rank injustice." "It came as a shock to us that our Canadian government was so influenced by American propaganda as to allow such a miscarriage of justice," Dubois said. "Doris McDonald is equally guilty with her husband."

RUSSIAN MOVIE
EXTRAS PUT ON
A REAL RIOT

Hollywood, Calif., March 22.—(U.P.)—All available Hollywood police were required to subdue and disperse a mob of 1,000 Russian movie extras who rioted last night outside the Paramount studios.

The rioters claimed they had been called for work and then had been refused pay and transportation.

"THREEFOLD MISSION OF THE CHURCH"

Edgar A. Valiant Makes Startling Statements at First Baptist Church

AT CHRISTIAN LIFE MISSION

His Method of Evangelism is an Unusual One

Speaking on the subject, "The Threefold Mission of the Church," Edgar A. Valiant made some startling statements in his Christian Life Mission at the First Baptist church last evening. His method of evangelism is an unusual one, not following the customary order of revival meetings, but containing all the elements that made the old worth while, and incorporating many new and original ideas.

"The church's primary task is to pray," he said. "We can do nothing until we have prayed, we can do everything after we have prayed. In God's great plan of world conquest, he has made this the most potent factor in the fulfillment of His plan. But while the church must pray, it should never forget that it is also to preach. Every member of the church is to be a preacher, for all are kings and priests unto God. There is no sacerdotal order in the New Testament church. It is by the foolishness of preaching that the world is to be saved, and all are obligated to unite in this work. And to present the claims of Christ is the most precious privilege that could ever come to man."

A well attended shop meeting was held at the noon hour on the North Side. The boys and girls meeting was of great interest but it was felt that there should be many more in attendance. In the service last evening, Rev. Stewart Bain of International Falls offered prayer, and Rev. R. E. Cody of this city read the scripture. Tomorrow, a noon day shop meeting will be held on the North Side, and the regular meetings will be held in the evening. All are invited to attend.

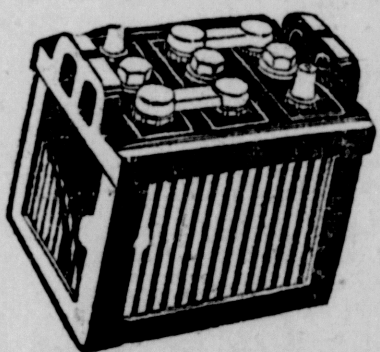

FIND MISSING GIRL AT HOME OF HER MOTHER

Chicago, March 22.—(UP)—Vivian Long, cabaret entertainer whose friends feared she had been "taken for a ride" because she knew too much about the Chicago gang activities, was found today at the home of her mother, Mrs. Herman Sachs, at Hammond, Ind.

She told police that she had been held prisoner by Max Pollock, a former employer at his Cicero hotel from Monday, when she disappeared, until last night.

LADIES' BAND REORGANIZES

Retains Mrs. Ziebell, Its Popular Director, to Lead Band to Further Fame

PREPARES FOR BUSY SEASON

Feminine Band Plans to Make 1928 its Most Successful Year

By unanimous vote at a meeting held Tuesday evening, the Brainerd Ladies' Band was disbanded, but already a new organization has been formed under the same name to succeed the old organization and carry on with the work of the band as in the past. Regular weekly rehearsals are to be held at the Brainerd Commercial College under direction of Winifred Cronk Ziebell, director of the former organization since its beginning several years ago. Mrs. Ziebell has given to the city of Brainerd a musical organization of which it is justly proud and her musical ability is recognized over the entire state, each appearance of the band in the past having brought further honors upon herself and the city.

The band will retain its original size or nearly so, with a majority of the personnel of the old organization and several new members.

Already numerous requests have been received for the appearance of the band at various places and occasions and several of these have been booked. Members and director are highly optimistic over the prospects for the year 1928 and hope to make this their banner year.

It is understood the annual spring concert of the band will be given some time after Easter. The public has always considered this concert as one of the highlights of the musical season and looks forward to it with the keenest enjoyment.

FIRE INSPECTION OF CITIES STARTS NEXT MONDAY

St. Paul, March 22.—(UP)—The annual state fire inspection of cities and villages will start Monday under the direction of the state fire marshal. It was announced here today.

Inspection of Minneapolis schools is first on the program.

Inspection schedules were outlined in part as follows:

St. Cloud, April 2-4; Brainerd, April 28.

The inspection of smaller towns and villages will start April 30.

SLEDGEHAMMER BANDITS RAID SIX MILL CITY OFFICES

Minneapolis, March 22.—(UP)—Sledge hammer bandits raided six Minneapolis offices and shops overnight, obtaining as their only loot a \$1,000 check upon which payment had been stopped and a few street car tokens. They helped themselves to a free meal at one of their raided shops.

General Improvement in Employment Situation in Nation

Washington, March 22.—(UP)—Reports on employment from all parts

of the country indicate a general improvement in the present situation may be expected soon, according to the regular monthly employment bulletin of the United States employment service today.

"The horizon is clearing and the employment outlook is encouraging," says a supplementary statement by Francis I. Jones, director of the service.

"The iron and steel industry, long

recognized as a reliable barometer, has shown a definite improvement in both production and employment," Jones said.

"In this country where more than forty million people are gainfully employed, it is only reasonable to expect a certain volume of unemployment where industry is widely diversified and where employment is affected by seasonal influences. Installation of labor saving machinery has undoubtedly displaced a certain number of workers," he said.

LADIES' BAND REORGANIZES

Retains Mrs. Ziebell, Its Popular Director, to Lead Band to Further Fame

PREPARES FOR BUSY SEASON

Feminine Band Plans to Make 1928 its Most Successful Year

By unanimous vote at a meeting held Tuesday evening, the Brainerd Ladies' Band was disbanded, but already a new organization has been formed under the same name to succeed the old organization and carry on with the work of the band as in the past. Regular weekly rehearsals are to be held at the Brainerd Commercial College under direction of Winifred Cronk Ziebell, director of the former organization since its beginning several years ago. Mrs. Ziebell has given to the city of Brainerd a musical organization of which it is justly proud and her musical ability is recognized over the entire state, each appearance of the band in the past having brought further honors upon herself and the city.

The band will retain its original size or nearly so, with a majority of the personnel of the old organization and several new members.

Already numerous requests have been received for the appearance of the band at various places and occasions and several of these have been booked. Members and director are highly optimistic over the prospects for the year 1928 and hope to make this their banner year.

It is understood the annual spring concert of the band will be given some time after Easter. The public has always considered this concert as one of the highlights of the musical season and looks forward to it with the keenest enjoyment.

FIRE INSPECTION OF CITIES STARTS NEXT MONDAY

St. Paul, March 22.—(UP)—The annual state fire inspection of cities and villages will start Monday under the direction of the state fire marshal, it was announced here today.

Inspection of Minneapolis schools is first on the program.

Inspection schedules were outlined in part as follows: St. Cloud, April 2-4; Brainerd, April 28.

The inspection of smaller towns and villages will start April 30.

SLEDGEHAMMER BANDITS RAID SIX MILL CITY OFFICES

Minneapolis, March 22.—(UP)—Sledge hammer bandits raided six Minneapolis offices and shops overnight, obtaining as their only loot a \$1,000 check upon which payment had been stopped and a few street car tokens. They helped themselves to a free meal at one of their raided shops.

General Improvement in Employment Situation in Nation

Washington, March 22.—(UP)—Reports on employment from all parts

of the country indicate a general improvement in the present situation may be expected soon, according to the regular monthly employment bulletin of the United States employment service today.

"The horizon is clearing and the employment outlook is encouraging," says a supplementary statement by Francis I. Jones, director of the service.

"The iron and steel industry, long

recognized as a reliable barometer, has shown a definite improvement in both production and employment," Jones said.

"In this country where more than forty million people are gainfully employed, it is only reasonable to expect a certain volume of unemployment where industry is widely diversified and where employment is af-

ected by seasonal influences. Installation of labor saving machinery has undoubtedly displaced a certain number of workers," he said.

THE PEDDLER AND HIS METHODS

"Good morning, madam! Do you remember me?"

It is an old song, a nauseating melody that is played by the old house-to-house artist in his annual invasion of the American home every summer. They come alone, or in bunches, or in streams one following the other.

The peddler is a pleasant fellow, happy-go-lucky, carefree and at ease in any situation. He is good looking. He flourishes a smile that cracks his whole face from ear to ear. Perhaps he is the most efficient of salesmen.

But good salesmanship does not excuse illegitimacy. The housewives are few in number who have never been taken in by some "skin-game" of these individuals. Nor is it the invariable hypothesis here that there are no honest men among the people who knock on your front door with the little leather case under arm. But the rule is general, that the quality of the merchandise they have to offer is inferior to say the least, that intimacies with them are dangerous, and that the products they have to sell are often misrepresented, and that purchases from them are unadvisable.

The work in which peddlers engage is not pleasant. They do not enjoy it themselves. A housewife on washing day is probably the least cordial person in the world. But the solicitor has no choice. He must produce, like everyone else, or go the way of all flesh.

He is a keen student of human psychology and if he is a real artist in his business, he never fails to make the correct approach at every call. He has several methods of gaining an audience. The first of these is called the old "remember me" canvass. He portrays himself as an old friend, relative or acquaintance. His subject, unaware that she is to receive a caller, is taken aback as to just how to accept the situation at the moment. He introduces himself. She replies, squinting to get a better view of his face, that she doesn't recall the name, but—yes—the face is familiar. There is a possibility, you know, that this may be one of her husband's distant relatives. So she opens the door. The rest is easy for Mr. Peddler. She hates to be rude. He answers her objections without hesitation—he has heard the same ones exactly hammering, she signs and makes the inevitable deposit with the money saved for the grocer.

The second approach is the one where juvenility is the main theme. The younger members of the profession or the working-my-way-through-college canvasser uses it to advantage. By the end of the day, he has attended every college and university in the country, according to the tale he tells, and is probably supporting a widowed mother and six brothers and sisters in the bargain. He prances lightly up the steps, stumbling, singing, and forever smiling, dancing on one foot and then the other meanwhile explaining that he has only twenty thousand votes still to get in order to obtain the scholarship that will take him back to school. He jokes. He is studying to be a doctor while his friend across the street is to be an undertaker. When they have completed their courses at the university they intend to form a partnership that will revolutionize society. The housewife laughs and that is all there is to it—another sale because she likes to help nice boys who are ambitious enough to get along and plug for themselves. She makes the deposit with the money, this time, that had been set aside for the church dues.

The third method of gaining an audience is by use of the "sob" canvass, the most insulting of any to the intelligence of the housewife. This time the canvasser is a dramatist, the sole character in a one-act skit. He begins talking in a voice so low that she must listen attentively to get his words while he gazes with frank, open eyes into hers. His eyes tearful and his voice husky as he relates his pitiful condition as having any or every bodily ailment registered in the records of the American Medical association. Oh, that is too bad! Her uncle or mother, or father, or sister was once in a similar situation and if her son and daughter should ever be faced with such disaster, wouldn't she like someone to help them out? Of course! She takes the offered pencil and fixes her attention upon signing the dotted line while the peddler unloads his mind of the thousands of difficulties he had been laboring under for a few minutes, and laughs and laughs way down inside.

In another minute he is gone, another dollar is gone, and another peddler has been encouraged to ply upon the good will of the housewife.

Such is the condition that actually exists. There will always be a certain number of these vultures that prey upon the doorsteps of the home waiting for a cripple to devour. But meeting their game with an intelligent offensive can smother their trade to a minimum.—*Bemidji Daily Pioneer.*

PROBLEMS OF SHIPPERS AND UTILITIES

A DECREASE in the tendency toward governmental interference with business would probably follow efforts by other industries to settle their problems and differences "across the table," as the shippers have done. R. F. Pack, vice president and general manager of the Northern States Power Company, told members of the northwest shippers advisory board at their formal meeting in Crookston.

"We in the electrical business," Mr. Pack continued, "are fortunate enough to have encountered an experience similar to yours equally gratifying in the promotion of cordial public relations and I hope destined to be equally gratifying in its ultimate results. I refer to the problem of extending electric service to the farmer."

Mr. Pack then related the history of the Red Wing experimental line which was made possible through the co-operation of many agencies after "every effort to solve the problem single-handed had failed."

SPRING FEVER

YESTERDAY the government thermometer climbed to the fifties above and the balmy air was a direct cause of spring fever. Pupils in school, men at the work benches, professional men at their desks, stretched and yawned and yearned to go fishing.

There was no fishing, the only sport available and legally possible after getting proper licenses is snaring the festive muskrat. However, one may do the next best thing and burnish up the fishing tackle, polish the car and clean the debris of winter from sidewalks and the house lot.

QUEEN MARIE of Roumania, in an interview accorded the United Press, indicates that she has decided to devote her life to literary endeavor after the recent death of her consort, King Ferdinand.

THE WORLD'S GREAT EVENTS

ALBERT PAYSON TERHUNE

(© by Dodd, Mead & Company.)

Arnold von Winkelried

SANDWICHED in between several large European nations is a little, mountainous country made up of twenty-two tiny states. These states differ from each other in religion, politics, industries, language and a hundred other points. Yet each and all are splendidly patriotic and united in their compact little federation. Their unity and freedom were bought by centuries of bloodshed and heroic resistance of stronger powers. This confederation of united provinces, or "cantons," is Switzerland.

It consists of former fragments of Italy, Germany and France welded into one nation. A few of these cantons banded together in 1291 in a defensive alliance against any outside foe, but particularly against Austria. Other cantons from time to time joined the alliance, until by the end of the fifteenth century Switzerland was practically an independent country, with German, French and Italian as its official languages. The chief promoters of the original union were the men of the Schwyz valley, and from these the names "Swiss" and "Switzerland" are derived.

Switzerland's oldest and most relentless enemy was Austria. Austria was a duchy, not an empire, in the early stages of the struggle and was ruled by the Hapsburgs. The Hapsburgs, eager to annex new territory, encroached on Switzerland. The hardy mountaineers endured, but a brief period of tyranny and soon flew to arms against their oppressors. Two heroes stand out as foremost in beating back the invaders.

In 1315 an Austrian governor, Gessler by name, was put in charge of the Uri district of Switzerland. Among other acts of tyranny he caused his hat to be mounted on a pole and commanded all passersby to bow to it. William Tell, a peasant, happened along, his crossbow slung over his shoulder and leading his little son by the hand. He refused to salute the hat. Gessler ordered his arrest. Learning that Tell was a famous marksman, the governor ordered him by way of punishment, to shoot an apple off his own son's head. Tell accepted the perilous test, and at the first shot split the apple in half without injuring the boy. Gessler was about to release him, when he noticed a second arrow stuck through the peasant's belt and asked why it was there.

"To shoot you if I had slain my son!" was Tell's reply.

Gessler, in fury, commanded him to be bound, thrown into a boat and rowed to the governor's castle on Lake Lucerne. On the way a storm sprang up. The boat was in danger, and Tell, being a skilled sailor, was unbound and set at the helm. He steered the boat on a rock, leaped ashore and escaped, shooting Gessler through the heart as the latter reached land. Tell then fled to the mountains and rallied his countrymen to resist the Austrian punishment that was certain to follow. Nor was he mistaken in his belief, for the Austrian Archduke Leopold, with nearly 20,000 men, invaded Switzerland.

Less than 1,500 Swiss gathered to oppose the invasion, and took up a position at the top of a steep mountain pass at Morgarten. The Austrians charged up the slippery slope, but were met by an avalanche of tree trunks and boulders hurled down by the defenders. After a fruitless effort to overcome the handful of mountaineers the Austrians were driven back in wild disorder, leaving 1,500 dead on the field.

This victory attracted other cantons to the federation and taught Europe a wholesome respect for the plucky little states. But sixty years later Leopold III, nephew of the archduke who was so soundly trounced at Morgarten, led an army 6,000 strong against Switzerland. About 1,600 Swiss advanced to check him; and on July 9, 1386, the two armies met on a meadow slope near Sempach.

The ground was uneven and marshy and broken by streams and hedges. The heavy-armed, mounted Austrians could not deploy in such quarters as rapidly and skillfully as the lightly equipped Swiss infantry. Yet by force of numbers they made headway against the weaker foe and left no weak place in their barrier of spears. Through which the patriots could break. They were rapidly surrounding the Swiss preparatory to cutting them to pieces, when Arnold von Winkelried, from the canton of Unterwalden, rushed forward against the serried line of Austrian spears, and shouting, "Make way for Liberty!" grasped all the spears within his reach and gathered their points to his own breast. As he fell, pierced through and through, the weight of his body dragged the spears' points earthward with him, leaving a gap in the Austrian line which his comrades rushed through, over his dead body.

The result of the battle of Sempach was to break Austria's power in the united cantons. Other nations from time to time attacked the little free country, but with no better result.

And so, through the centuries, the tiny independent nation, whose watchword was "Liberty," wrenched victory from adversity and freedom from the stronger hands of oppression, proving, even as the United States was later destined to prove, that more force and tyranny can never blind men who are resolved to be free.

Africa and America Linked By World's Latest Radio Service

Harvey S. Firestone, Jr., Sends First Message
From Liberia To Rubber Company's Own
Station In Akron—Daily Reports On
Rubber Growth To Follow

Mr. and Mrs. Harvey S. Firestone, Junior, now in the African jungles, today broadcasted the first message sent from the special radio station recently erected on the Firestone rubber plantation in the interior of Liberia, on the West Coast of Africa. The message was received at a similar station on the roof of the Firestone factories at Akron, Ohio.

This marks a new era of communication with the interior of inaccessible countries. Heretofore, the method used was to send foot messengers through jungle trails, taking days to get in touch with the outside world. Broadcasting by radio direct from one continent to another thus gives the Firestone Tire & Rubber Co. a great advantage in developing its million acres of rubber lands that were secured from the Liberian government. Although these properties are located over 5,000 miles from the Firestone headquarters at Akron, Ohio, it will now be possible to send reports every day by radio from the Liberian plantations to Akron.

100,000 Acres Laid Out

Mr. Firestone, Jr., has been in Liberia since early January. In his first report by radio today, he said that the Liberian government officials were enthusiastically co-operating with Firestone in the company's great undertaking to make Liberia one of the important rubber-growing countries of the world. Mr. Firestone said that during the first year two 50,000-acre plantations had been laid out, one on the Du river and the other 150 miles south of the Du on the Cavalla river.

Firestone engineers in the same time had constructed over 75 miles of roads and had built and established headquarters on the two plantations, with housing facilities for the resident staffs of 118 Americans. Power plants for the development of electric power, light and refrigeration had been built, as well as hospitals and trade stores for the benefit of the Americans and also to supply the needs of the 15,000 natives who are employed in clearing the jungles and planting rubber trees.

1,500,000 Trees Planted

During the past year, according to Mr. Firestone's first radio report, over 1,500,000 rubber trees have been planted on a total of over 15,000 acres of cleared jungle lands. This is a record in rubber plantation work. It is the largest number of trees set out and acres planted by any single company in the same length of time. And Mr. Firestone stated that the rate of progress in clearing land and planting rubber trees is being constantly increased.

Mr. Firestone reported that the steamship sent over for service had been placed in commission along the Liberian coast and is now linking up the Firestone plantations and the coast towns of Liberia. He expressed the hope that Firestone will soon have its own vessels operating directly between New York and Liberia, making the Atlantic passage in less than two weeks. When this is done, it will not only give Firestone an advantage of from two to five weeks in time as compared with other rubber-growing countries, but will also greatly reduce the cost of transportation.

Teach Natives Trades

Great progress in the development of the Firestone trade schools was also reported. Mr. Firestone said that the natives were very anxious to learn under the instruction of the Firestone technical staff. The dark-skinned Liberians are being taught to be carpenters, blacksmiths, plumbers, electricians, automobile mechanics, sanitary en-

gineers, soil experts and foresters.

Now that the Liberians, for the first time in the history of the country, have a system of good roads, they are suddenly becoming enthusiastic about motor transportation, and they all want to ride in automobiles, trucks or tractors. As a result, Monrovia, the capital of Liberia, has established a traffic squad to police the traffic on its principal streets. When the Firestone company went into Liberia, there were no roads in the country, and only one automobile. This was owned by the President of Liberia, who had very little occasion to use it because of the absence of good roads.

When Mr. Firestone arrived at the Du river plantation, he was greeted as the "Great White Chief" by many thousands of Firestone native employees who had erected a great arch of leaves and ferns at the entrance of the property and lined the road on both sides as he drove through eleven miles of the plantation to headquarters.

\$5,000,000 Loan to Liberia

Mr. Harvey S. Firestone, Sr., has successfully arranged a \$5,000,000 loan in America for the Liberian government. This places Liberia on a firm financial basis, and permits the development of roads, schools and public buildings. The 118 Americans comprising the Firestone technical staff are helping to organize the 2,000,000 or more native Liberians and give them remunerative employment which had not been hitherto available in their own country. The natives are proving very adaptable and willing to work in an organized way. This has made possible the clearing and planting of such a large acreage during the past year and has undoubtedly had a very appreciable effect in the recent reduction in the price of crude rubber.

European newspapers have carried many articles deriding Firestone for going into Africa to plant rubber. They claimed the soil was poor for rubber growing and that the natives would not work. The British government now realizes that Firestone's Liberian enterprise is anything but

a folly. It is conceded by everybody that Firestone has made the greatest rubber development ever accomplished by any single company in the same length of time. Liberia confronts the British and Dutch rubber growers as an increasingly important competitor. And now the British Parliament is seriously considering the question of abandoning or at least modifying the rubber restriction policy.

The British colonies in the Middle East have vigorously expressed themselves along this line. Ceylon has voted to abandon rubber restriction entirely. In Singapore, Liberia confronts the British and Dutch rubber growers as an increasingly important competitor. And now the British Parliament is seriously considering the question of abandoning or at least modifying the rubber restriction policy.

When Premier Baldwin brought up the question of modifying rubber restriction in the British Parliament, rubber was selling around 42 cents a pound. Within a few weeks it dropped to about 18 cents a pound. Since a variation of 1 cent a pound means a difference of over \$5,000,000 a year to American rubber buyers, the decline from 42 to 24 cents a pound will mean a saving of \$150,000,000 a year to America if the present price is maintained.

The second approach is the one where juvenility is the main theme. The younger members of the profession or the working-man-through-college canvasser uses it to advantage. By the end of the day, he has attended every college and university in the country, according to the tale he tells, and is probably supporting a widowed mother and six brothers and sisters in the bargain. He prances lightly up the steps, stumbling, singing, and forever smiling, dancing on one foot and then the other meanwhile explaining that he has only twenty thousand votes still to get in order to obtain the scholarship that will take him back to school. He jokes. He is studying to be a doctor while his friend across the street is to be an undertaker. When they have completed their courses at the university they intend to form a partnership that will revolutionize society. The housewife laughs and that is all there is to it—another sale because she likes to help nice boys who are ambitious enough to get along and plug for themselves. She makes the deposit with the money, this time, that had been set aside for the church dues.

The third method of gaining an audience is by use of the "sob" canvass, the most insulting of any to the intelligence of the housewife. This time the canvasser is a dramatist, the sole character in a one-act skit. He begins talking in a voice so low that she must listen attentively to get his words while he gazes with frank, open eyes into hers. His eyes tearful and his voice husky as he relates his pitiful condition as having any or every bodily ailment registered in the records of the American Medical association. Oh, that is too bad! Her uncle or mother, or father, or sister was once in a similar situation and if her son and daughter should ever be faced with such disaster, wouldn't she like someone to help them out? Of course! She takes the offered pencil and fixes her attention upon signing the dotted line while the peddler unloads his mind of the thousands of difficulties he had been laboring under for a few minutes, and laughs and laughs way down inside.

In another minute he is gone, another dollar is gone, and another peddler has been encouraged to ply upon the good will of the housewife.

Such is the condition that actually exists. There will always be a certain number of these vultures that prey upon the doorsteps of the home waiting for a cripple to devour. But meeting their game with an intelligent offensive can smother their trade to a minimum.—*Bemidji Daily Pioneer.*

PROBLEMS OF SHIPPERS AND UTILITIES

A DECREASE in the tendency toward governmental interference with business would probably follow efforts by other industries to settle their problems and differences "across the table," as the shippers have done. R. F. Pack, vice president and general manager of the Northern States Power Company, told members of the northwest shippers advisory board at their formal meeting in Crookston.

"We in the electrical business," Mr. Pack continued, "are fortunate enough to have encountered an experience similar to yours equally gratifying in the promotion of cordial public relations and I hope destined to be equally gratifying in its ultimate results. I refer to the problem of extending electric service to the farmer."

Mr. Pack then related the history of the Red Wing experimental line which was made possible through the co-operation of many agencies after "every effort to solve the problem single-handed had failed."

SPRING FEVER

YESTERDAY the government thermometer climbed to the fifties above and the balmy air was a direct cause of spring fever. Pupils in school, men at the work benches, professional men at their desks, stretched and yawned and yearned to go fishing.

There was no fishing, the only sport available and legally possible after getting proper licenses is snaring the festive muskrat. However, one may do the next best thing and burnish up the fishing tackle, polish the car and clean the debris of winter from sidewalks and the house lot.

THE WORLD'S GREAT EVENTS

SANDWICHED in between several large European nations is a little, mountainous country made up of twenty-two tiny states. These states differ from each other in religion, politics, industries, language and a hundred other points. Yet each and all are splendidly patriotic and united in their compact little federation. Their unity and freedom were bought by centuries of bloodshed and heroic resistance of stronger powers. This confederation of united provinces, or "cantons," is Switzerland.

It consists of former fragments of Italy, Germany and France welded into one nation. A few of these cantons banded together in 1291 in a defensive alliance against any outside foe, but particularly against Austria. Other cantons from time to time joined the alliance, until by the end of the fifteenth century Switzerland was practically an independent country, with German, French and Italian as its official languages. The chief promoters of the original union were the men of the Schwyz valley, and from these the names "Swiss" and "Switzerland" are derived.

Switzerland's oldest and most relentless enemy was Austria. Austria was a duchy, not an empire, in the early stages of the struggle and was ruled by the Hapsburgs. The Hapsburgs, eager to annex new territory, encroached on Switzerland. The hardy mountaineers endured but a brief period of tyranny and soon flew to arms against their oppressors. Two heroes stand out as foremost in beating back the invaders.

In 1315 an Austrian governor, Gessler by name, was put in charge of the Uri district of Switzerland. Among other acts of tyranny he caused his hat to be mounted on a pole and commanded all passersby to bow to it. William Tell, a peasant, happened along, his crossbow slung over his shoulder and leading his little son by the hand. He refused to salute the hat. Gessler ordered his arrest. Learning that Tell was a famous marksman, the governor ordered him by way of punishment, to shoot an apple off his own son's head. Tell accepted the perilous test, and at the first shot split the apple in half without injuring the boy. Gessler was about to release him, when he noticed a second arrow stuck through the peasant's belt and asked why it was there.

"To shoot you if I had slain my son!" was Tell's reply.

Gessler, in fury, commanded him to be bound, thrown into a boat and rowed to the governor's castle on Lake Lucerne. On the way a storm sprang up. The boat was in danger, and Tell, being a skilled sailor, was unbound and set at the helm. He steered the boat on a rock, leaped ashore and escaped, shooting Gessler through the heart as the latter reached land. Tell then fled to the mountains and rallied his countrymen to resist the Austrian punishment that was certain to follow. Nor was he mistaken in his belief, for the Austrian Archduke Leopold, with nearly 20,000 men, invaded Switzerland.

Less than 1,500 Swiss gathered to oppose the invasion, and took up a position at the top of a steep mountain pass at Morgarten. The Austrians charged up the slippery slope, but were met by an avalanche of tree trunks and boulders hurled down by the defenders. After a fruitless effort to overcome the handful of mountaineers the Austrians were driven back in wild disorder, leaving 1,500 dead on the field.

This victory attracted other cantons to the federation and taught Europe a wholesome respect for the plucky little states. But sixty years later Leopold III, nephew of the archduke who was so soundly trounced at Morgarten, led an army 6,000 strong against Switzerland. About 1,600 Swiss advanced to check him; and on July 9, 1386, the two armies met on a meadow slope near Sempach.

The ground was uneven and marshy and broken by streams and hedges. The heavy-armed, mounted Austrians could not deploy in such quarters as rapidly and skillfully as the lightly equipped Swiss infantry. Yet by force of numbers they made headway against the weaker foe and left no weak place in their barrier of spearpoints through which the patriots could break. They were rapidly surrounding the Swiss preparatory to cutting them to pieces, when Arnold von Winkelried, from the canon of Unterwalden, rushed forward against the serried line of Austrian spears, and shouting, "Make way for Liberty!" grasped all the spears within his reach and gathered their points to his own breast. As he fell, pierced through and through, the weight of his body dragged the spears' points earthward with him, leaving a gap in the Austrian line which his comrades rushed through, over his dead body.

The result of the battle of Sempach was to break Austria's power in the united cantons. Other nations from time to time attacked the little free country, but with no better result.

And so, through the centuries, the tiny independent nation, whose watchword was "Liberty," wrenched victory from adversity and freedom from the stronger hands of oppression, proving, even as the United States was later destined to prove, that mere force and tyranny can never bind men who are resolved to be free.

Africa and America Linked
By World's Latest Radio ServiceHarvey S. Firestone, Jr., Sends First Message
From Liberia To Rubber Company's Own
Station In Akron—Daily Reports On
Rubber Growth To Follow

Mr. and Mrs. Harvey S. Firestone, Junior, now in the African jungles, today broadcasted the first message sent from the special radio station recently erected on the Firestone rubber plantation in the interior of Liberia, on the West Coast of Africa. The message was received at a similar station on the roof of the Firestone factories at Akron, Ohio.

This marks a new era of communication with the interior of inaccessible countries. Heretofore, the method used was to send foot messengers through jungle trails, taking days to get in touch with the outside world. Broadcasting by radio direct from one continent to another thus gives the Firestone Tire & Rubber Co. a great advantage in developing its million acres of rubber lands that were secured from the Liberian government. Although these properties are located over 5,000 miles from the Firestone headquarters at Akron, Ohio, it will now be possible to send reports every day by radio from the Liberian plantations to Akron.

100,000 Acres Laid Out

Mr. Firestone, Jr., has been in Liberia since early January. In his first report by radio today, he said that the Liberian government officials were enthusiastically co-operating with Firestone in the company's great undertaking to make Liberia one of the important rubber-growing countries of the world. Mr. Firestone said that during the first year two 50,000-acre plantations had been laid out, one on the Du river and the other 150 miles south of the Du on the Cavalla river.

Firestone engineers in the same time had constructed over 75 miles of roads and had built and established headquarters on the two plantations, with housing facilities for the resident staffs of 118 Americans. Power plants for the development of electric power, light and refrigeration had been built, as well as hospitals and trade stores for the benefit of the natives and also to supply the needs of the 15,000 natives who are employed in clearing the jungles and planting rubber trees.

1,500,000 Trees Planted

During the past year, according to Mr. Firestone's first radio report, over 1,500,000 rubber trees have been planted on a total of over 15,000 acres of cleared jungle lands. This is a record in rubber plantation work. It is the largest number of trees set out and acres planted by any single company in the same length of time. And Mr. Firestone stated that the rate of progress in clearing land and planting rubber trees is being constantly increased.

Mr. Firestone reported that the steamship sent over for service had been placed in commission along the Liberian coast and is now linking up the Firestone plantations and the coast towns of Liberia. He expressed the hope that Firestone will soon have its own vessels operating directly between New York and Liberia, making the Atlantic passage in less than two weeks. When this is done, it will not only give Firestone an advantage of from two to five weeks in time as compared with other rubber-growing countries, but will also greatly reduce the cost of transportation.

Teach Natives Trades

Great progress in the development of the Firestone trade schools was also reported. Mr. Firestone said that the natives were very anxious to learn under the instruction of the Firestone technical staff. The dark-skinned Liberians are being taught to be carpenters, blacksmiths, plumbers, electricians, automobile mechanics, sanitary en-

gineers, soil experts and foresters.

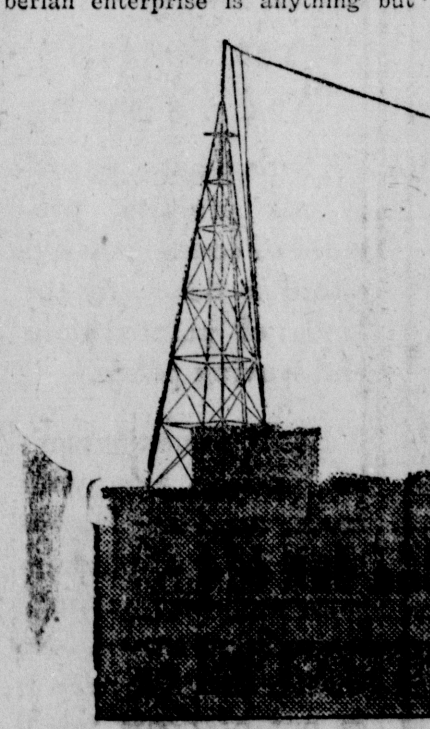

Now that the Liberians, for the first time in the history of the country, have a system of good roads, they are suddenly becoming enthusiastic about motor transportation, and they all want to ride in automobiles, trucks or tractors. As a result, Monrovia, the capital of Liberia, has established a traffic squad to police the traffic on its principal streets. When the Firestone company went into Liberia, there were no roads in the country, and only one automobile. This was owned by the President of Liberia, who had very little occasion to use it because of the absence of good roads.

When Mr. Firestone arrived at the Du river plantation, he was greeted as the "Great White Chief" by many thousands of Firestone native employees who had erected a great arch of leaves and ferns at the entrance of the property and lined the road on both sides as he drove through eleven miles of the plantation to headquarters.

\$5,000,000 Loan to Liberia

Mr. Harvey S. Firestone, Sr., has successfully arranged a \$5,000,000 loan in America for the Liberian government. This places Liberia on a firm financial basis, and permits the development of roads, schools and public buildings. The 118 Americans comprising the Firestone technical staff are helping to organize the 2,000,000 or more native Liberians and give them remunerative employment which had not been hitherto available in their own country. The natives are proving very adaptable and willing to work in an organized way. This has made possible the clearing and planting of such a large acreage during the past year and has undoubtedly had a very appreciable effect in the recent reduction in the price of crude rubber.

European newspapers have carried many articles lauding Firestone for going into Africa to plant rubber. They claimed the soil was poor for rubber growing and that the natives would not work. The British government now realizes that Firestone's Liberian enterprise is anything but

Aerial Atop Firestone Factory—Akron

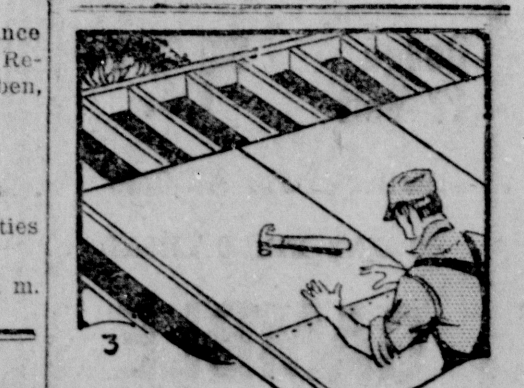

a folly. It is conceded by everybody that Firestone has made the greatest rubber development ever accomplished by any single company in the same length of time. Liberia confronts the British and Dutch rubber growers as an increasingly important competitor. And now the British Parliament is seriously considering the question of abandoning or at least modifying the rubber restriction policy.

The British colonies in the Middle East have vigorously expressed themselves along this line. Ceylon has voted to abandon rubber restriction entirely. In Singapore, Straits Settlements, 47 out of 72 rubber growers have voted to abandon rubber restriction or to modify it so it would not be effective.

When Premier Baldwin brought up the question of modifying rub-

ber restriction in the British Parliament, rubber was selling around 42 cents a pound. Within a few weeks it dropped to about 18 cents a pound. Since a variation of 1 cent a pound means a difference of over \$8,000,000 a year to American rubber buyers, the decline from 42 to 24 cents a pound will mean a saving of \$150,000,000 a year to America if the present price is maintained.

TUNNEY FACES SUSPENSION IN NEW YORK STATE TODAY

GRADE SCHOOL CAGE TOURNEY TO OPEN MONDAY

FAILED TO ACT ON CHALLENGES NOW ON FILE

NEW YORK ATHLETIC COMMISSION MAY SOON TAKE ACTION

SHARKEY, HEENEY AND RISKI SOUGHT CHANCE TO FIGHT CHAMPION

New York, March 22.—(U.P.)—Gene Tunney, heavyweight boxing champion, today faced suspension in New York State for failure to act on challenges filed with the New York athletic commission by Jack Sharkey, Tom Heenev and Johnny Riski.

Tunney's reply yesterday to the commission's decree that he select an opponent for his next title bout before the expiration today of his six-months' period allowed a champion in which to defend his title failed to satisfy the board.

Addressed to Secretary Bert Stand, Tunney's wire read: "please notify your body that I have already signed with Mr. Tex Rickard to defend my title against the best opponent available as soon as he can arrange to fight his selection and stage the contest."

In the event of suspension Rickard may be forced to carry the next heavyweight title bout elsewhere.

If Tunney is suspended, the commission may name the man Tunney must box if he fights here this summer. The commission desired Tunney to name definitely his next opponent from the three challengers, and his failure to do so has left the way open for the board to name his opponent for him.

Sending Burleigh Grimes to the Pirates for Vic Aldridge in an effort to get a strong spring pitcher, apparently has cost the New York Giants a regular hurler. Aldridge refuses to report and McGraw says he is through with him.

COMPETING TEAMS REDUCED TO 29 IN CATHOLIC TOURNEY

Chicago, March 22.—(U.P.)—Three first round games last night reduced to 29 the competing teams in the fifth annual national Catholic high school basketball tournament in progress at Loyola university.

Elder high of Cincinnati opened the tournament with a 23 to 6 victory over St. Benedict's at Atchison, Kan. The listless play of the opening game improved in the second contest between De La Salle high of Joliet, Ill., last year's champions, and Calvert Hall, Baltimore, which the Illinois team won 27 to 15. In the third game Cathedral high of Indianapolis rallied to edge out of 15 to 14 victory over Cathedral of St. Cloud, Minn.

MINNESOTA'S ANNUAL STATE HIGH SCHOOL CHAMPIONSHIP BATTLE

Minneapolis, March 22.—(U.P.)—Minnesota's annual state high school basketball tournament occupied the center of attraction today as teams prepared to battle for the championship and the right to represent the state at the national meet.

First games of the three day meet will be played late today, with elimination games in progress late Friday and the semi and championship meets scheduled for Saturday night.

The first game is this afternoon when Excelsior meets New Prague at 3 o'clock. An hour later Moorhead's five will clash with the strong Virginia team. At 8 o'clock Austin and Northfield meet while an hour later the Edison boys—Minneapolis' entrant, and Appleton will clash.

The second set will be played Friday, the first game being scheduled for 3 o'clock.

UNSETTLED AS TO HAHN GOING TO BIG GAMES

U. S. TEAM, ACCORDING TO OLYMPIC COMMITTEE, TO GO IN ONE BODY

WILL SAIL ABOARD LINER PRESIDENT ROOSEVELT ON JULY 11

New York, March 22.—(U.P.)—Whether Lloyd Hahn of Nebraska and the Boston A. A., America's premier middle distance runner, will go abroad ahead of the American Olympic team, remained unsettled today.

The American Olympic committee announced yesterday that the United States team will go in one body, sailing aboard the liner President Roosevelt July 11, but did not say Hahn would be prevented from preceding the main body.

Lawson Robertson, Pennsylvania, who was reappointed head coach, expects to confer with Jack Ryder of the Boston A. A., Hahn's coach and developer, within the month to settle Hahn's case.

"I feel that all the athletes should go in one group," Robertson said, "but Hahn believes he can't win unless he goes over a month in advance of the team and it may be better for

his frame of mind to give him his preference."

By placing Ryder on the team, the committee paved the way for a solution to Hahn's problem. Ryder will devote most of his attention, a member of the committee said, to Hahn and Leo Larmond.

The track and field team will be composed of ninety men, four for each of twenty-one events and six for the marathon.

The women's track team will be composed of twenty competitors coached by Mel Sheppard, who won both the 800 and 1,500 meter races at London in 1908. The final try-outs for the women's team will be held in New York, July 7.

At the Training Camps

(By United Press)

Clearwater, Fla.—The Brooklyn Robins' new infield combination is composed of Bissonette at first, Riconda at second, Bancroft at short and Freigan at third. Uncle Wilbert Robinson has benched Jay Patridge and moved Riconda from third to second, sending Freigan to the hot corner in Riconda's place.

Big Jim Elliott had a slight limp today as a result of being hit on the left foot by a line drive from Butch Henline's bat.

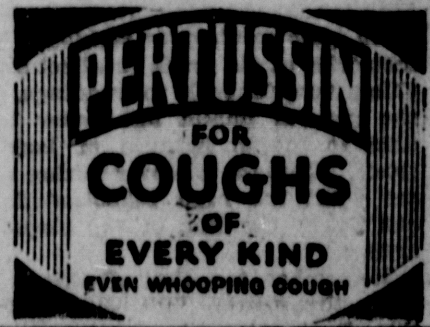

Avon Park, Fla.—With "Wattle" Holm shifted to the infield "Pepper" Martin, rookie outfielder from Houston, will be given every chance to win a regular outfield berth with

the St. Louis Cardinals. Martin will be used in Taylor Douthitt's place in center field the rest of the exhibition games.

West Palm Beach, Fla.—A benefit game between the St. Louis American regulars and Yannigans was scheduled today with the proceeds going to the local high school. The Brooklyn Robins open a three-game series here Friday after which the Browns start north. They will play in Birmingham, Memphis, Kansas City, Tulsa and Joplin en route.

St. Petersburg.—The final game between the New York Yankees and the Boston Braves was scheduled here today. The failure of Babe Ruth, Lou Gehrig and Rogers Hornsby, who will collect \$140,000 in combined salaries this year, to do anything in the four previous games is one of the training camp mysteries at St. Petersburg.

Avalon, Catalina Island.—The Chicago Cubs will break training camp after today's practice and go to the mainland to engage in a series of exhibition games prior to the season's opening.

SPORTSMATTER

BY FRANK GETTY
UNITED PRESS SPORTS EDITOR

The heavyweight contenders who were barred from Tex Rickard's personally conducted elimination tournament, have taken heart as a result of the complete flop of that enterprise.

When the promoter traced a charmed circle of gold around Heenev, Riski, Delaney and Sharkey and declared all the other big beak busters beyond the pale, quite a few stalwart young men were left without jobs in the vicinity of New York.

They could fight, of course, but in the small clubs for a few thousand dollars, while the lucrative site of Madison Square Garden remained closed to the contenders in the elimination group.

Paolino Uzcudun and George Godfrey, two of the best heavyweights now fighting, had to go all the way to the Pacific Coast to find a spot for a remunerative engagement. Knute Hansen, Phil Scott, Roberta Roberti and others who would have been delighted to participate in the elimination of some of the customers' cash money, have instead been moping around, peering over the Garden fence and watching the more fortunate quartet with envious eyes.

When the second of the semi-final bouts—that in which Johnny Riski shaded Jack Sharkey—proved as disappointing as the first—in which Tom Heenev shaded Jack Delaney—the outsiders figured that business certainly was looking up.

There remains the Rickard monopoly on big boxing shows, of course, but it has become distressingly obvious that while these shows are big, the participants are bums. And if Rickard's bums can make money there may be a chance for someone else.

A demand for Jack Dempsey's return to the ring, which doubled in volume when Heenev and Delaney stumbled through their painful exhibition of inadequacy, tripled in volume after the Sharkey-Riski fight.

Rickard and Tunney now are conferring at Miami Beach. The champion favors going ahead with arrangements for a bout with Tom Heenev in June. "I always maintained that Heenev was the best of the contenders for the championship which I now hold," said Gene.

There is a little matter of an agreement, signed by Charley Harvey, the New Zealander's manager, calling for a bout between Heenev and the winner of the Sharkey-Riski bout. Neither Harvey nor Heenev is anxious to take on Johnny Riski. The Cleveland dropped a decision to Tom last year, but it was a close fight and Johnny might turn the tables next time.

The public has paid generously for its fistie entertainment in the past two years and is entitled to a better run for its money than it is likely to receive in 1928. About the only solution seems to be to require Tunney to defend the title with one hand tied behind his back.

One benefit was derived from the four-cornered elimination tournament. Two boxers unfit to qualify for a match for the heavyweight championship were exposed. Jack Delaney proved he cannot make the grade against the big fellows, and Jack Sharkey proved he cannot make the grade against anyone.

The departure of the Lithuanian must be considered as a step in the direction of progress.

As for Delaney, he can always earn a living in his own class.

Sending Burleigh Grimes to the Pirates for Vic Aldridge in an effort to get a strong spring pitcher, apparently has cost the New York Giants a regular hurler. Aldridge refuses to report and McGraw says he is through with him.

ED 'STRANGLER' LEWIS TO MEET BIG MUNN TONIGHT

Minneapolis, March 22.—(U.P.)—Ed "Strangler" Lewis, world's champion heavyweight wrestler, and Big Munn of Nebraska will come together here tonight in a finish match, best of three falls. Lewis has agreed to put up his diamond belt, emblematic of the world's title, and Munn intends to put up a determined battle to cop it.

The heavyweight contenders who were barred from Tex Rickard's personally conducted elimination tournament, have taken heart as a result of the complete flop of that enterprise.

When the promoter traced a charmed circle of gold around Heenev, Risko, Delaney and Sharkey and declared all the other big beak busters beyond the pale, quite a few stalwart young men were left without jobs in the vicinity of New York.

They could fight, of course, but in the small clubs for a few thousand dollars, while the lucrative site of Madison Square Garden remained closed to the contenders in the elimination group.

Paolino Uzcudun and George Godfrey, two of the best heavyweights now fighting, had to go all the way to the Pacific Coast to find a spot for a remunerative engagement. Knute Hansen, Phil Scott, Roberta Roberti and others who would have been delighted to participate in the elimination of some of the customers' cash money, have instead been moping around, peering over the Garden fence and watching the more fortunate quartet with envious eyes.

When the second of the semi-final bouts—that in which Johnny Risko shaded Jack Sharkey—proved as disappointing as the first—in which Tom Heenev shaded Jack Delaney—the outsiders figured that business certainly was looking up.

There remains the Rickard monopoly on big boxing shows, of course, but it has become distressingly obvious that while these shows are big, the participants are bums. And if Rickard's bums can make money there may be a chance for someone else.

A demand for Jack Dempsey's return to the ring, which doubled in volume when Heenev and Delaney stumbled through their painful exhibition of inadequacy, trebled in volume after the Sharkey-Risko fight.

Rickard and Tunney now are conferring at Miami Beach. The champion favors going ahead with arrangements for a bout with Tom Heenev in June. "I always maintained that Heenev was the best of the contenders for the championship which I now hold," said Gene.

There is a little matter of an agreement, signed by Charley Harvey, the New Zealander's manager, calling for a bout between Heenev and the winner of the Sharkey-Risko bout. Neither Harvey nor Heenev is anxious to take on Johnny Risko. The Cleveland dropped a decision to Tom last year, but it was a close fight and Johnny might turn the tables next time.

The public has paid generously for its fistie entertainment in the past two years and is entitled to a better run for its money than it is likely to receive in 1928. About the only solution seems to be to require Tunney to defend the title with one hand tied behind his back.

One benefit was derived from the four-cornered elimination tournament. Two boxers unfit to qualify for a match for the heavyweight championship were exposed. Jack Delaney proved he cannot make the grade against the big fellows, and Jack Sharkey proved he cannot make the grade against anyone.

The departure of the Lithuanian must be considered as a step in the direction of progress.

As for Delaney, he can always earn a living in his own class.

COMPETING TEAMS REDUCED TO 29 IN CATHOLIC TOURNEY

Chicago, March 22.—(U.P.)—Three first round games last night reduced to 29 the competing teams in the fifth annual national Catholic high school basketball tournament in progress at Loyola university.

Elder high of Cincinnati opened the tournament with a 24 to 6 victory over St. Benedict's at Atchison, Kan. The listless play of the opening game improved in the second contest between De La Salle high of Joliet, Ill., last year's champions, and Calvert Hall, Baltimore, which the Illinois team won 27 to 15. In the third game Cathedral high of Indianapolis rallied to edge out of 15 to 14 victory over Cathedral of St. Cloud, Minn.

"BUNION DERBY" OFF FOR LUPTON

32-MINUTE JAUNT FROM NAVAJO TO GOAL OF 19TH LAP

By JAMES S. POWERS,
(United Press Staff Correspondent)

Navajo, Ariz., March 22.—C. C. Pyle's "Bunion Derby" contestants, led by Arne Souminen, Detroit Finn, left here today on a 32-mile jaunt to Lupton, Ariz., the goal of the nineteenth lap of the Los Angeles to New York foot race.

Souminen finished second in yesterday's 41.8 mile-lap from Holbrook but maintained his lead in elapsed time standing with a total of 112:50:45. Eddie Gardner, Seattle negro, led yesterday's field; traversing the distance in 6:14:25. His total time was 125:19:36.

Souminen was more than one hour ahead of his nearest rival in elapsed time, Andrew Payne, of Claremore, Okla., who finished eleventh yesterday.

Other finishers and times follow: Wanttinen, 155:22:32. Peter Gavuzzi, England, 117:44:41. Dwight Houfstatler, Michigan, 122:55:35. Earl Lind Dilks, New Castle, Pa., 135:14:15. Johnny Vierra, Alameda, Calif., 154:43:45. John Cronick, Saskatoon, Canada, 115:50:15. William Kerr, Minneapolis, 131:57:54.

MINNESOTA'S ANNUAL STATE HIGH SCHOOL CHAMPIONSHIP BATTLE

Minneapolis, March 22.—(U.P.)—Minnesota's annual state high school basketball tournament occupied the center of attraction today as teams prepared to battle for the championship and the right to represent the state at the national meet.

First games of the three day meet will be played late today, with elimination games in progress late Friday and the semi and championship meets scheduled for Saturday night.

The first game is this afternoon when Excelsior meets New Prague at 3 o'clock. An hour later Moorhead's five will clash with the strong Virginia team. At 8 o'clock Austin and Northfield meet while an hour later the Edison boys—Minneapolis' entrant, and Appleton will clash.

The second set will be played Friday, the first game being scheduled for 3 o'clock.

UNSETTLED AS TO HAHN GOING TO BIG GAMES

U. S. TEAM, ACCORDING TO OLYMPIC COMMITTEE, TO GO IN ONE BODY

WILL SAIL ABOARD LINER PRESIDENT ROOSEVELT ON JULY 11

New York, March 22.—(U.P.)—Whether Lloyd Hahn of Nebraska and the Boston A. A., America's premier middle distance runner, will go abroad ahead of the American Olympic team, remained unsettled today.

The American Olympic committee announced yesterday that the United States team will go in one body, sailing aboard the liner President Roosevelt July 11, but did not say Hahn would be prevented from preceding the main body.

Lawson Robertson, Pennsylvania, who was reappointed head coach, expects to confer with Jack Ryder of the Boston A. A., Hahn's coach and developer, within the month to settle Hahn's case.

"I feel that all the athletes should go in one group," Robertson said, "but Hahn believes he can't win unless he goes over a month in advance of the team and it may be better for

his frame of mind to give him his preference."

By placing Ryder on the team, the committee paved the way for a solution to Hahn's problem. Ryder will devote most of his attention, a member of the committee said, to Hahn and Leo Larmond.

The track and field team will be composed of ninety men, four for each of twenty-one events and six for the marathon.

The women's track team will be composed of twenty competitors coached by Mel Sheppard, who won both the 800 and 1,500 meter races at London in 1908. The final try-outs for the women's team will be held in New York, July 7.

At the Training Camps

(By United Press)

Clearwater, Fla.—The Brooklyn Robins' new infield combination is composed of Bissonette at first, Riconda at second, Bancroft at short and Freigau at third. Uncle Wilbert Robinson has benched Jay Patridge and moved Riconda from third to second, sending Freigau to the hot corner in Riconda's place.

Big Jim Elliott had a slight limp today as a result of being hit on the left foot by a line drive from Butch Henline's bat.

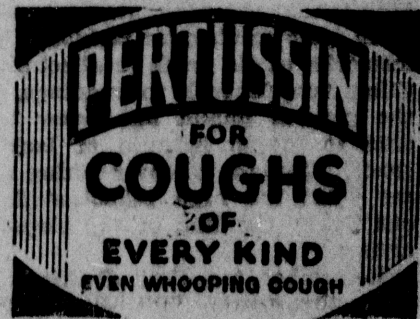

Avon Park, Fla.—With "Wattle" Holm shifted to the infield "Pepper" Martin, rookie outfielder from Houston, will be given every chance to win a regular outfield berth with

the St. Louis Cardinals. Martin will be used in Taylor Douthitt's place in center field the rest of the exhibition games.

West Palm Beach, Fla.—A benefit game between the St. Louis American regulars and Yannigans was scheduled today with the proceeds going to the local high school. The Brooklyn Robins open a three-game series here Friday after which the Browns start north. They will play in Birmingham, Memphis, Kansas City, Tulsa and Joplin en route.

St. Petersburg.—The final game between the New York Yankees and the Boston Braves was scheduled here today. The failure of Babe Ruth, Lou Gehrig and Rogers Hornsby, who will collect \$140,000 in combined salaries this year, to do anything in the four previous games is one of the training camp mysteries at St. Petersburg.

Avalon, Catalina Island.—The Chicago Cubs will break training camp after today's practice and go to the mainland to engage in a series of exhibition games prior to the season's opening.

What it takes to make a man pipe-happy, P.A. has!

TAKE a piece of paper and write down all the things you like in a smoke. Then buy a tidy red tin of P.A. and check the tobacco against your list. Open the package and release that tantalizing P.A. fragrance. Load up and light up. One thrill now follows another. You're ready to believe all the fine things you've heard about P.A.

Cool as a jury-foreman, rising to speak. Sweet as his words: "Not guilty." Mild as your interest in a civil suit. Mild and mellow, but with that rich, satisfying tobacco-body that only the world's most popular brand can

offer. You can't seem to get enough of tobacco like this!

The proof of the puffing is in a pipe packed with P.A. Go get some now and see what a real companion your pipe can be when you put it on the right ration. Just around the corner is a store where they hand out pipe-joy in tidy red tins. Your cue-to-contentment is to get around there now.

HIGH SCHOOL IN "VODVIL"

School Blossoms Out Into a New
Venture
Tonight

FINE PROGRAM PREPARED

Add to This Tense Battle Between
Freshman and Sophomore
Cage Teams

The high school blossoms out into a new venture tonight when it appears in "vodvil." The Hennepin-Orpheum is robbed of its best features to prepare the show for Brainerd audiences. There will be the speed, startling shots and flashing lights of the mystery drama, the mysterious magical successor of Houdini himself, the latest disciple of Pavlova, destined, perhaps, to eclipse the great danseuse, and various other acts musical and dramatic. They have been careful worked up and should enthrall those interested in big time vaudeville.

Add to this a tense battle between the Freshman and Sophomore teams, and the presentation of the boys' and girls' pennants, and you will have a full evening. The inter-class games have been bitter battles all along, and in the case of the underclassmen this championship game should be exciting, for most of the boys on the two teams have been out for practice for a good share of the season, and although they did not make their letters, are the material for the future championship teams.

One of the traditions of Brainerd high is that the pennants be presented in some spectacular fashion. The memories of old grads recollect every thing from funerals to weddings, but the general public has never been able to attend because of lack of space. Tonight whoever wishes may see what the high school students can do in the line of the slapstick artists.

Remember, too, that all this is for a worthy cause. The year book—the Brainerdian—is an expensive book to edit, so your two-bits helps everything along.

STRUCK BY TONGUE OF MILK WAGON; FATALLY INJURED

Minneapolis, March 22.—(UP)—Struck by the tongue of a milk wagon, Mrs. Helen Erickson, 30, was fatally injured here today. She died an hour after the mishap at the General hospital. Death was due, physicians said, to a punctured lung.

Mrs. Erickson was crossing a street when she was knocked down by the horses. Driver of the wagon is held pending an investigation.

English Mourning Custom

The custom of wearing a black band on the coat sleeve in token of mourning came from England. It was introduced there for liveried servants, whom it was not thought necessary to fit out in black uniforms.

The lapel "nick" in coats was originally a secret sign. Those who supported General Moreau in his rivalry with the Emperor Napoleon agreed to nick their lapels to form an M. That served its purpose until the nick became fashionable.

EXPANSION PROGRAM FOR LAND O' LAKES CREAMERIES, INC.

Minneapolis, March 22.—(UP)—An expansion program to further place the Land O' Lakes Creameries, Inc., in the lead in butter production in this country was announced today by A. J. McGuire, manager of the organization. The organization has 90,000 dairy farmers.

The program includes the acquisition of seven Wisconsin creameries, opening today of a Duluth branch butter printing plant to have 5,000,000 pounds annual capacity, the probable acquisition later of nearly a score of southern Wisconsin creameries, and the opening of a Chicago branch to handle business of the association.

APPEL'S APPLE COMPLEXION INTRIGUED BY ST. PAUL JUDGE

St. Paul, March 22.—(UP)—Judge Clayton Parks stopped today to pass upon the redness and the rosiness of a certain "Appel" that came before him for official attention.

It was one Adam Appel, arraigned in police court on a charge of drunkenness.

"Is that your right name?" asked the judge.

"Yes, your honor."

"What were you trying to do, tickle your palate with a little cider?"

"I don't remember."

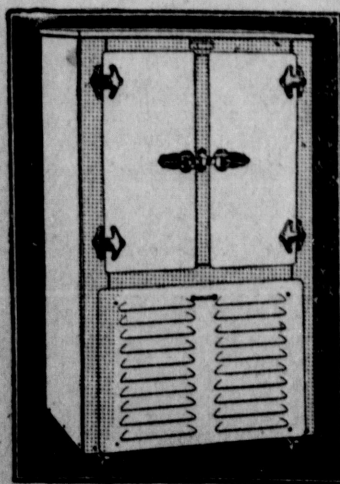

"Well," replied the judge, "you look as if you're still a little rosy this morning, so we'll let you go back to jail to sober up. That ought to be fruit for thought."

STATE BANKERS AT BREEZY POINT

Association to Bring 300 Bankers
and Their Wives to Popular Re-
sort on Big Pelican Lake

DATES SET JUNE 18-19-20

First Time the Financial Men Ever
Had a Summer Meeting
at a Lake Resort

Dates and meeting place for the 1923 convention of the Minnesota Bankers Association have been fixed. It will be at Breezy Point Lodge on June 18, 19 and 20. Attendance is anticipated to run as high as 300 bankers and their wives.

This change from Minneapolis, says the Commercial West, was made necessary because of inability to obtain hotel accommodations there during the International Rotary convention. Hibbing then put in a bid too for the convention, but Breezy Point won.

Fred P. Fellows, secretary of the bankers association, is sending members an announcement giving in detail the plans for the convention, information regarding reservations, and so on.

Dates and places for the 1923 Minnesota group meetings were decided upon at a meeting in Minneapolis of presidents and secretaries of the various district associations. Groups No. 6 and 9 met May 22 and 23 at Little Falls.

At Breezy Point there will be a golf tournament, trap shooting and other events scheduled for the afternoon of Monday, June 18, and the usual pre-convention smoker in the evening. A well known Twin City orchestra will be engaged to play Monday and Tuesday evenings for dancing.

SON SHOTS HIS FATHER TO DEATH

Alpharetta, Ga., March 22.—(UP)—Marvin Barrett, 13-year-old boy who shot his father to death when the parent, Robert L. Barrett, "came home drunk and threatened to kill us all," was freed from custody today by Justice of Peace Ed Buice, who held the shooting justifiable. Barrett was slain last Saturday night. The son used a shotgun, blowing off the top of his father's head.

Greenville, S. C., March 22.—(UP)—Rev. E. N. Wrenn, a Baptist minister, was sentenced to four months on the chain gang today, following his conviction on charges of violating the state banking laws, in connection with the failure of the Textile Bank of West Greenville.

Wrenn was a director of the institution. He will appeal.

WINONA AIRWAYS CO. INCORPORATED

St. Paul, March 22.—(UP)—The Minneapolis-Sipipi Airways, Inc., Winona, today filed articles of incorporation with the secretary of state. The capital was listed at \$50,000, and the corporation proposes to buy and sell aircraft, and to carry passengers, freight and mail for hire.

TISEMENT

Washington, March 22.—(UP)—The "White Carnation Woman" who was taken off a New York train here yesterday morning as dead and later revived with aid of pulmotor and blood transfusion, was believed identified today as Mrs. Mary True, 30, widow of Altamont, Md.

Police received word that Sheriff J. C. Griffith of Garrett county, Maryland, had recognized a description of the woman and was on his way to notify her father, Francis Robie of Altamont.

The woman, who clutched a white carnation in her apparently lifeless hand when found chloroformed on the train, was able to breathe without pulmotor aid, and this afternoon gave signs of returning consciousness.

Identification was made possible through finding of a pencil stub in her purse. The stub bore the advertisement of an automobile firm at Lake Ronkonkoma, Long Island, N. Y. Inquiry at Lake Ronkonkoma developed that Mrs. True, nurse at Suffolk sanatorium nearby, had left there Tuesday and sent a note she would not return. It was said she had incipient tuberculosis.

VOTE ON COUZENS RESOLUTION DELAYED

Washington, March 22.—(UP)—A vote on the Couzens resolution advising Secretary of the Treasury Mellon to resign was indefinitely delayed after two hours discussion in the senate today.

The resolution went to the calendar under an automatic rule after Sen. David A. Reed, defender of Mellon, had moved to refer it to the senate finance committee.

The resolution cannot be brought up again unless by special vote of the senate.

Mellon was attacked by Couzens and defended by Reed during the two hours debate.

Washington, March 22.—(UP)—The "White Carnation Woman" who was taken off a New York train here yesterday morning as dead and later revived with aid of pulmotor and blood transfusion, was believed identified today as Mrs. Mary True, 30, widow of Altamont, Md.

Police received word that Sheriff J. C. Griffith of Garrett county, Maryland, had recognized a description of the woman and was on his way to notify her father, Francis Robie of Altamont.

The woman, who clutched a white carnation in her apparently lifeless hand when found chloroformed on the train, was able to breathe without pulmotor aid, and this afternoon gave signs of returning consciousness.

Identification was made possible through finding of a pencil stub in her purse. The stub bore the advertisement of an automobile firm at Lake Ronkonkoma, Long Island, N. Y. Inquiry at Lake Ronkonkoma developed that Mrs. True, nurse at Suffolk sanatorium nearby, had left there Tuesday and sent a note she would not return. It was said she had incipient tuberculosis.

VOTE ON COUZENS RESOLUTION DELAYED

Washington, March 22.—(UP)—A vote on the Couzens resolution advising Secretary of the Treasury Mellon to resign was indefinitely delayed after two hours discussion in the senate today.

The resolution went to the calendar under an automatic rule after Sen. David A. Reed, defender of Mellon, had moved to refer it to the senate finance committee.

The resolution cannot be brought up again unless by special vote of the senate.

Mellon was attacked by Couzens and defended by Reed during the two hours debate.

MARCH 28 SET FOR FIRE INSPECTION

Minnesota State Fire Prevention Association to Have Officials Here Then

WILL LIST DEFECTS

Following Inspection Fire Preventionists Will Suggest Needed Improvements

With the purpose of discovering any defects in construction or equipment of a business house, school, church, theatre, or other public institution which might cause a fire, the Minnesota State Fire Prevention Association will conduct an inspection of Brainerd, March 28, at the invitation of the Chamber of Commerce, the Lions and Rotary clubs cooperating in the activity.

To accomplish their purpose, members of the state organization will go through the business district, inspecting buildings, both inside and outside. The object in view of the men making the inspections is to secure the cooperation of both owners and occupants in ridding their premises of all fire hazards that may exist.

In addition to the inspection of the business section, a trained corps of members of the State Association will investigate the schools, churches etc., scrutinizing especially the safety conditions of each structure, as well as the fire hazards involved.

The inspection activities of the fire preventionists will in no way interfere with the regular order of things. In carrying on their work, a couple of members of the organization pass quietly through a given place of business, noting any dangerous accumulation of rubbish, instances of defective electric wiring, or other fire hazards which the owner or occupant of the premises may have entirely overlooked. Following the inspection, the fire preventionists will list the defects they have found and suggest the needed improvements.

The visitors will not attempt to inspect dwellings here, this phase of the work being handled by means of what are known as "Home Inspection" blanks in the hands of the school children, who enter into the spirit of the work, with excellent results, as a rule.

CHAMBER PLEDGES MORAL SUPPORT

Special Meeting Considers Entry of Brainerd in 132 Mile Marathon

LACK PROPER CINDER TRACK

Latter Would Militate Against Any Large Track Meet at Brainerd

The Chamber of Commerce at a special meeting last night voted to pledge their moral support to the Calhoun Beach club of Minneapolis in sponsoring the proposed Brainerd to Minneapolis marathon race the latter part of April. The proposition that Brainerd raise \$500 as its share of the financing of the race was rejected.

All members present were in favor to give the Calhoun Beach club their wholehearted support, but it was felt that lack of a proper cinder track could not guarantee sufficient turnout at the proposed track meet the day previous to the race.

Coach Warren Kasch of the high school stated he was willing to co-operate with the Chamber of Commerce in any action they took. He believed runners would insist on a cinder track.

Attorney Hilding Swanson suggested that the cinder path around Gregory park be used.

B. Perry Newton, scout executive, pointed out that the start of the race would probably be held during the middle of the week, and that unless the schools were allowed a half holding the proposed field day would not attract a large crowd.

No publicity had been sought at this time by the Calhoun Beach club in city papers, and the idea of having the marathon start at Brainerd was first broached at the directors meeting of the Chamber of Commerce here. The Minneapolis club has the choice of half a dozen routes to Minneapolis and does not necessarily have to start the race at Brainerd. The marathon is to be made a part of the diamond jubilee celebration in Minneapolis this year, and as such the project will receive general publicity in Minneapolis and throughout the northwest.

Superintendent W. C. Cobb stated that it was a matter for the board of education to decide whether or not

the schools would be allowed a half holiday.

Coach Kasch stated that the N. P. field would make an ideal location for the establishment of a cinder track, skirting the field with a width of 10 to 14 feet. He said that a fine half mile track would be constructed there without any great expense and felt confident that should a track of that nature be built, the district track meet which is held every year in May could be secured for Brainerd. He stated that the meet was at present held in Little Falls where visiting towns were forced to travel considerable distance to compete. He pointed out that Brainerd would be the logical place for the staging of the district meet on account of its location.

Mr. Cobb also felt that should a practical track be secured in Brainerd at the N. P. field it would not be a difficult matter to secure the district track meet here.

Members of the Chamber were highly in favor of the suggestion and will assist in the proposed plan to lay out a track at the N. P. field.

AUCTION SALE

Over 1,200 People in Attendance at Maul Brothers Sale of Cows

An auction sale of cows was held at Aitkin by the Maul Brothers Tuesday with W. T. Conkin acting as auctioneer. About twelve to fifteen hundred people were in attendance. They sold for an average price of \$110 each and most of them bought were brought into Brainerd territory. This was one of the most successful sales held in Aitkin county and many Brainerd people were benefited by it.

The Minneapolis club has the choice of half a dozen routes to Minneapolis and does not necessarily have to start the race at Brainerd. The marathon is to be made a part of the diamond jubilee celebration in Minneapolis this year, and as such the project will receive general publicity in Minneapolis and throughout the northwest.

Superintendent W. C. Cobb stated that it was a matter for the board of education to decide whether or not

the schools would be allowed a half holiday.

Coach Kasch stated that the N. P. field would make an ideal location for the establishment of a cinder track, skirting the field with a width of 10 to 14 feet. He said that a fine half mile track would be constructed there without any great expense and felt confident that should a track of that nature be built, the district track meet which is held every year in May could be secured for Brainerd. He stated that the meet was at present held in Little Falls where visiting towns were forced to travel considerable distance to compete. He pointed out that Brainerd would be the logical place for the staging of the district meet on account of its location.

Mr. Cobb also felt that should a practical track be secured in Brainerd at the N. P. field it would not be a difficult matter to secure the district track meet here.

Members of the Chamber were highly in favor of the suggestion and will assist in the proposed plan to lay out a track at the N. P. field.

AUCTION SALE

Over 1,200 People in Attendance at Maul Brothers Sale of Cows

An auction sale of cows was held at Aitkin by the Maul Brothers Tuesday with W. T. Conkin acting as auctioneer. About twelve to fifteen hundred people were in attendance. They sold for an average price of \$110 each and most of them bought were brought into Brainerd territory. This was one of the most successful sales held in Aitkin county and many Brainerd people were benefitted by it.

A Beautiful Rayon Bed Spread At a Very Special Price

We place on sale today this exceptionally good value in a brocaded Rayon bed spread. Good weight, large size, 84x108, which is large enough to cover the bolster and wide enough to come well over the sides. Finished with a scalloped edge all the way around, giving a beautiful finish.

These are spreads which we have often had to sell for a half more and the quantity is limited at this price and we feel that you will appreciate the value as soon as you see them. Four of the most popular colors to choose from.

"The Last Command" Called Best of Efforts Offered to American Public

If Emil Jannings continues making such great pictures, critics throughout the world will find it hard to procure adjectives to adequately describe them.

Jannings has scored again, this time in a remarkable characterization as a military general. His newest Paramount picture has been titled "The Last Command," and it opened a three engagement at the Lyceum theatre yesterday.

PROBLEMS THAT BOTHER THE BIG LEAGUE HEADS

STILL LACK A SOLUTION AFTER
MONTHS' SPRING
TRAINING

WHAT CLUBS IN THE AMERICAN
LEAGUE NEED TO BEAT
YANKEES

By GEORGE KIRKSEY
(United Press Staff Correspondent)

New York, March 22.—Some of the problems which the big league baseball managers set out to solve a month ago still were lacking a solution today after a month's spring training.

The amateur managers who can show any American League manager in a few minutes with pencil and paper how to beat the Yankees might take under advisement this list:

Chicago Cubs—A second baseman to replace "Sparky" Adams.

St. Louis Cardinals—A shortstop to replace Tommy Thevenow if his injured leg handicaps him.

Brooklyn Robins—How will Dave Bancroft perform at shortstop?

New York Giants—Can Andy Cohen keep up his spring pace?

Cincinnati Reds—Will Luque, Mays and Rixey come through?

Detroit Tigers—Getting Fothergill into shape.

Philadelphia Athletics—Will Cobb and Speaker hinder or help?

Cleveland Indians—Roger Peckinpaugh's ability to get a disorganized team together.

St. Louis Browns—Success of Manush and Blue.

Chicago White Sox—Showing of Chalmers Cissell, \$123,000 shortstop.

Boston Red Sox—Ken Williams' comeback and reorganized pitching staff.

Stanley Harris, manager of the Washington Senators, believes he has found another Tris Speaker in Sam West.

"West may never be the hitter Speaker is, but he certainly looks like another Speaker when it comes to covering the outfield."

West will start the season in center field for the Senators.

The holdouts have dwindled down to a pair of National League pitchers, Pete Donohue and Vic Aldridge of the Giants, but these two apparently are good for the summer unless their terms are met.

Donohue may never pitch for the Reds again. From his home at Fort Worth, Texas, Donohue sends word that if he never puts on a Cincinnati uniform again that'll be too soon.

Branch Rickey, vice president of the Cardinals, is hot after Donohue and may land him for the Cards.

Brooklyn Robins—How will Dave Bancroft perform at shortstop?

New York Giants—Can Andy Cohen keep up his spring pace?

Cincinnati Reds—Will Luque, Mays and Rixey come through?

Detroit Tigers—Getting Fothergill into shape.

Philadelphia Athletics—Will Cobb and Speaker hinder or help?

Cleveland Indians—Roger Peckinpah's ability to get a disorganized team together.

St. Louis Browns—Success of Manush and Blue.

Chicago White Sox—Showing of Chalmers Cissell, \$123,000 shortstop.

Boston Red Sox—Ken Williams' comeback and reorganized pitching staff.

Stanley Harris, manager of the Washington Senators, believes he has found another Tris Speaker in Sam West.

"West may never be the hitter Speaker is, but he certainly looks like another Speaker when it comes to covering the outfield."

West will start the season in center field for the Senators.

The holdouts have dwindled down to a pair of National League pitchers, Pete Donohue and Vic Aldridge of the Giants, but these two apparently are good for the summer unless their terms are met.

Donohue may never pitch for the Reds again. From his home at Fort Worth, Texas, Donohue sends word that if he never puts on a Cincinnati uniform again that'll be too soon.

Branch Rickey, vice president of the Cardinals, is hot after Donohue and may land him for the Cards.

Heals Eczema In 7 Days or Less

Or Your Money Back

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of barber's itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moone's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. H. P. Dunn can supply you at any time. —Advt.

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water.

QUICK PILE RELIEF

Dr. Leonhardt's Hem-Roid is guaranteed to banish any form of Pile misery, or money back. It gives quick action even in old, stubborn cases. Hem-Roid is a harmless tablet that removes blood congestion in the lower bowel—the cause of piles. It brings joyful relief quickly and safely or costs nothing. H. P. Dunn, Johnson's Pharmacy and druggists everywhere sell it with this guarantee. —Advt.

My knuckles were so sore and swollen with rheumatism I couldn't hold a pen in my hand. After many remedies had failed I tried 'St. Jacob's Oil.' Almost instantly the pain disappeared and soon my hands were normal again.

"St. Jacob's Oil" is the good old remedy for the pains and aches of Rheumatism, Sciatica, Neuritis, Lumbago, Sprains and Strains.

It goes directly to the seat of the trouble and draws out all the "ouch". It works every time and doesn't burn the skin. Get a small trial bottle of "St. Jacob's Oil" at your druggist today, and see the magic.
